Gävle, Gavleborgs Lan, 804 27, Sverige

Hello, my name is Konwit Maikhoksung. I graduated from Polhemsskolan in 2016 with a focus on Information Media through the Technology Program. This decision has been highly rewarding, and I am eager to apply and share my knowledge while continuously learning new skills.

I am passionate about personal and professional growth, especially in the ever-evolving field of technology. Staying updated with the latest advancements is crucial to me, as today's innovations may become obsolete tomorrow.

I embrace challenges as opportunities to learn and solve problems. I pride myself on my quick learning ability, thoroughness, and focus, which I believe are valuable traits in any job.

Problem-solving is one of my key strengths; I enjoy facing challenges head-on and finding effective solutions. I have experience working both independently and as part of a team, and I am known for my adaptability and cooperative nature.
